

Packaging specification : Modular Jack blister (standard packaging).

1. SCOPE:

Modular Jack SE, SE shielded, TE shielded, SE 2-port.

2. USED PACKAGING AND PACKAGING QUANTITIES

Product	Packaging phantom number	Unit quantity	Shipper quantity
SE 6/6	3-215998-9	240	1440
SE 8/8		200	1200
SE shielded 8/8		190	1140
SE port 8/4		110	660
SE port 8/8		50	300
TE 8/8		180	1080
TE shielded 8/8		180	1080
TE 4/4		290	1740

3. PACKAGING COMPOSITION

Packaging phantom number 3-215998-9:

Part number	Description	Quantity
165882	Box	1
100969-1	Blister	6
165872-2	Cardboard cover	6
165831	Foam	2
999641-1	Unit label	6
999639-1	LT label	1

4. PACKAGING METHOD

- Fold the box open and close the bottom with clear PE tape.
- Put foam on the bottom of the box.
- Fill one blister with connectors (correct amount, see point 2: each blister row contains 1 tenth of the unit quantity indicated)
- Put a cardboard cover over the filled blister.
- Put a unit label on the cardboard cover.
- Place the blister in the box.
- Repeat steps 3, 4, 5 and 6 until there are 6 blisters in the box.
- Put foam on top of the blisters in the box.
- Close the box with clear PE tape.
- Put the LT label on the box (preferred placement: right top corner of the small side).
