

GigaBIX Management Ring Spacers

AX102190 GigaBIX Management Ring Spacer

The GigaBIX Management Ring Spacers are metal brackets that are used to space and fasten Management Rings to the plywood backboard in a wall mount installation using cross-connect wire. They bring more flexibility to the design in that they allow for Cable Management Modules to be used underneath the mounts to run all cable from the ceiling or from the floor. Using the Management Ring Spacer ensures the right distance between Cable Management Modules

Features & Benefits

- > Compact and robust design for excellent durability
- > Self-aligning features allow for easy installation
- > 4 anchor points offers good stability

Application

- > Cable management in wall-mount installations using cross-connect wire.

Technical Specifications

- > Dimension (H x W x D): 61 x 127 x 76 mm (2.4 x 5.0 x 3.0 in.).
- > Material: Steel, 16 gauge, powder paint finish, black.

Installation tips

- > Read the Installation Guide carefully before starting the installation
- > Can be used as a spacer to position Cable Management Modules horizontally
- > Assemble with Management Ring and snap into GigaBIX Mount to position vertically (horizontal through)

Packaging

- > Packaged in clear plastic bag with 4 screws for Management Ring assembly and 2 wood screws.
