- Contoured wing design provides maximum torque
- Flexible shell expands for smooth, progressive tightening providing dependable connections
- Expanding, square-wire spring creates secure connections
- Wide, deep skirt opening accommodates a variety of wire combinations
- A full line for virtually every wire size and combination

With a full line for virtually every wire size and combination, the WingTwist® Wire Connector offers a great combination of performance and value.

The contoured wing design of the WingTwist® provides maximum torque for a variety of electrical applications while the copolymer shell and live-action spring expand for smooth, progressive tightening providing dependable connections.

With a tough, flame-retardant shell that withstands environmental extremes, and a long, deep skirt to provide maximum dielectric protection to prevent flash-over and turned-back strands, the WingTwist™ Wire Connector brings comfort and performance at a price that is right.

The Combination WireTwist®/WingTwist® Kit offers one easy solution for all your twist-on wiring needs. This 620-piece kit features an assortment of all models and sizes of WireTwist® and WingTwist® Wire Connectors in a handy plastic storage case. Perfect for maintenance and small project applications where several different wire connectors are required.
