

HDI-9411

HDMI Wall Plate with built in Repeater (1 Port)

High Definition Multimedia Interface
HDMI 19Pin Female to HDMI 19Pin Female

Quest HDI-9411 HDMI Wall Plate Repeater is especially designed for long-distance transmission. It is made to fit the standard US wall plate openings, similar to an AC outlet or light switch.

It can extend the signal transmission up to 30M (99 ft) more. Additionally, the HDMI Cable is hidden in the wall to provide a more finished look.

Perfect for connecting your HDMI Monitors, A/V Receivers, and HDTV monitors
Supports all HDMI Devices, including 1.3b
Supports Resolutions up to 1080P
