BlueKote Form 8, (X) 3/4 Inch Conduit Body, Body Material Gray Iron with Zinc Plating and Baked on Epoxy Powder Coat with BlueKote Internal Coating for Use with Rigid/IMC Conduit

- Eliminates rough internal surfaces that can cut into cable jacket, insulation and conductors during pulling and also reduces installation time and risk of installer strain.
- Triple-layer protection...including two layers of epoxy coating which stops corrosion in its tracks.
- Bodies are designed with a flat back, allowing more cubic inch capacity.
- Conduit bodies make 90 degree bends in conduit runs, act as mounting outlets for wiring devices and lighting fixtures and to provide access to conductors for maintenance and future system changes.
